

EMPLOYMENT	The Chinese University of Hong Kong, Shenzhen	Shenzhen, China
	Tenure-Track Assistant Professor in the School of Data Science	2026
	Academic Area: Operations Research	
	Columbia Business School	NY, USA
EDUCATION	Postdoctoral Researcher in the Decision, Risk, and Operations Division	2024 - 2026
	Mentors: Assaf Zeevi and Hongseok Namkoong	
	Stanford University	CA, USA
	PhD in Management Science and Engineering	2018 - 2024
RESEARCH INTERESTS	Advisors: Peter Glynn and Jose Blanchet	
	University of Science and Technology of China	Anhui, China
	BSc in Mathematics and Applied Mathematics	2014 - 2018
	Multi-armed bandits	
PUBLICATIONS	Markov chains convergence analysis	
	Deep learning for applied probability	
	Stochastic simulation	
	Y. Qu, H. Namkoong, and A. Zeevi. What Does Thompson Sampling Optimize? ICML 2026.	
PREPRINTS	Y. Qu, J. Blanchet, and P. Glynn. Deep Learning for Markov Chains: Lyapunov Functions, Poisson's Equation, and Stationary Distributions. <i>Queueing Systems</i> , arXiv, 2026.	
	– Special Issue: 40 Years of QUESTA	
	– NeurIPS 2025 Workshop MLxOR	
	Y. Qu, J. Blanchet, and P. Glynn. Computable Bounds on Convergence of Markov Chains in Wasserstein Distance via Contractive Drift. <i>Annals of Applied Probability</i> , arXiv, 2025.	
	– Applied Probability Society Best Student Paper Prize, 2023	
	– Applied Probability Society Conference Best Poster Award, 2023	
	Y. Qu, J. Blanchet, and P. Glynn. Deep Learning for Computing Convergence Rates of Markov Chains. NeurIPS 2024 (spotlight).

	Y. Qu, R. Kant, Y. Chen, B. Kitts, S. Gultekin, A. Flores, and J. Blanchet. Double Distributionally Robust Bid Shading for First Price Auctions. arXiv. (Yahoo intern)	
	Y. Qu, J. Blanchet, and P. Glynn. Strong Limit Interchange Property of a Sequence of Markov Processes.	
	Y. Qu, J. Blanchet, and P. Glynn. Estimating the Convergence Rate to Equilibrium of a Markov Chain via Simulation.	
	Y. Qu and P. Glynn. Uniform Edgeworth Expansions for Markov Chains with Applications to MCMC Sample Quantiles.	

TEACHING	At Stanford, I served as a TA for the following MS&E courses:	
	324: Stochastic Methods in Engineering	2021, 2022, 2023, 2024
	323: Stochastic Simulation	2020, 2024
	321: Stochastic Systems	2023
	221: Stochastic Modeling	2020
	220: Probabilistic Analysis	2019, 2022
	211: Introduction to Optimization	2021
	125: Introduction to Applied Statistics	2020
	260: Introduction to Operations Management	2020
AWARDS	Centennial Teaching Assistant Award	2024
	Applied Probability Society Best Student Paper Prize	2023
	Applied Probability Society Conference Best Poster Award	2023
	Dantzig-Lieberman Operations Research Fellowship	2021
	Guo Moruo Scholarship	2017
INVITED TALKS	A Broader View of Thompson Sampling	
	– INFORMS Optimization Society Conference	2026
	– INFORMS Annual Meeting	2025
	Deep Learning for Computing Convergence Rates of Markov Chains	
	– INFORMS Applied Probability Society Conference	2025
	Double Distributionally Robust Bid Shading for First Price Auctions	
	– INFORMS Annual Meeting	2024
	A New Class of Bounds for Convergence of Markov Chains to Equilibrium	
	– INFORMS Annual Meeting	2023
	– INFORMS Applied Probability Society Conference	2023
ACADEMIC SERVICE	I reviewed papers submitted to the following journals:	
	European Journal of Operational Research	
	Mathematics of Operations Research	
	Annals of Applied Probability	
	Operations Research
